EXPERIENCE

Jindal Saw Ltd (Internship)	New Delhi
Intern	June 2026 - August 2026

- Sized India's seamless pipe market at ₹9,116-12,439 Cr, estimating 0.94-1.00 Mn MT FY25 demand and 6.8% CAGR through FY30.
- Identified ₹2,504 Cr import-substitution opportunity by analyzing 7,086 customs shipments across products, industries and buyers to uncover high-potential demand pockets.
- Evaluated 5 domestic & global peers across scale, product capabilities, certifications and capacity utilization, identifying competitive gaps and informing a 3-horizon growth roadmap across 8 industries and regions.

ACADEMIC PROJECTS

Vertelo (Subsidiary of Macquarie Group)	Feb 2026 - May 2026
--	---------------------

Objective: Develop a strategic playbook to deeply penetrate the EV financing ecosystem in India.

Designed a comprehensive Go-To-Market (GTM) strategy encompassing OEM partnership models and channel distribution to capture high-growth EV segments and financing opportunities.

Credit Card Fraud Detection	Oct 2022 - Nov 2022
------------------------------------	---------------------

Objective: Conducted a root-cause analysis of fraudulent transactions to identify systemic risk patterns, providing strategic recommendations to reduce financial exposure and improve risk governance for the bank.

Key Achievement: Built a predictive risk model achieving 75% recall, with a projected annual cost saving of USD \$108,636 validated through a cost-benefit analysis and business impact assessment.

Tools & Skills: Jupyter Notebook (Python), Excel, PPT | Understanding Data, Data Cleaning, EDA, Data Transformation, Train/Test Data Splitting, Model Building, Model Evaluation, Business Impact, Cost-Benefit Analysis, Machine Learning, Analytical Thinking

Lead Score / Conversion Model	April 2022
--------------------------------------	------------

Objective: Developed a customer segmentation and lead prioritization model to optimize the sales funnel, enabling the sales team to focus outreach efforts on high-conversion prospects for an EdTech platform.

Key Achievement: Successfully identified potential leads with high conversion probability to maximize conversion efficiency.

Tools & Skills: Python (Jupyter Notebook) | Data Cleaning, EDA, Data Transformation, Train/Test Splitting, Machine Learning Model Building, Model Evaluation, Analytical Thinking.

LEADERSHIP & INVOLVEMENT

Koshu (The Strategy Society)	Dehradun
Core Member	Sept 2025 - Present
